

The Reef Resort's philosophy of keeping things simple is the "mantra" for its new spa, *LeSoleil Spa*. The Spa is akin to a day spa which will provide guests with simple solutions to soothe the soul, keeping the experience authentic yet affordable. The spa will provide a luxury touch as it uses the renowned skincare line from Paris, France, Yon-Ka Therapy. Additionally, the resort's low-rise structure hugs the coastline and never draws a shadow, and offers guests the largest beachfront on the island (1,600 square feet).

About LeSoleil Spa

The Spa is an intimate, 800 square feet retreat, a day spa in a resort setting with three treatment rooms, one being a dedicated couples' suite. Each suite is equipped with a private shower for the guest's convenience in mind. The spa is minimalistic yet stylish, a combination of rich dark woods with light sea green hues, keeping the atmosphere tranquil and synergistic, much like the turquoise and green colors of the Caribbean Sea.

About Yon-Ka Therapy

The Parisian skincare line Yon-Ka Therapy, which has celebrated over 50 years, is one the pioneers of esthetic aromatherapy and phytotherapy since its inception in 1957. The product line centers around two key concepts: phytobionintegrity and personalized treatments. Phytobiointegrity refers to Yon-Ka's focus on using the maximum benefits from the plant world, allowing the skin to reap the maximum benefits from each product. Yon-Ka's four botanical therapies of healing and nurturing products are:

- **Aromatherapy** – to treat with scents using a variety of botanical oils, each with an intended benefit or purpose. The use aromatherapy is multifaceted as it is reported to relieve fatigue, pain, and tension while invigorating and relaxing the body. It is reported that when these botanical oils are inhaled, they stimulate the nervous system and brain.
- **Phytotherapy** – "phyto" means plant so essentially this type of treatment is classified as an alternative healing method, or herbal medicine. Ancient Egyptian and Chinese records indicate that plants and herbs were used to heal a wide range of conditions, healing the body and skin mutually.
- **Marine Therapy** – utilizes ocean resources. Since the sea is rich in nutrients and offers a wide variety of healing properties, the Yon-Ka line includes these marine extracts in its skincare products, which are designed to nourish and heal the skin.
- **Fruit Acid Therapy** – Yon-Ka incorporates the beneficial effects of alpha hydroxy acids and beta hydroxy acids since fruit AHA's are the most effective at promoting cell turnover and reducing the appearance of lines in the skin.

Spa Therapies

Facial Therapy

- *Le Grande Classique* – 75 minute treatment, offering a five-stage restorative, deep pore cleansing without irritation using a gentle cleanse, hydro-peel, essential oil pulverization, micro-peel exfoliation, extractions, and customized massage including a personalized face and eye mask.
- *Soin Pureté* – 75 minute treatment targeting acne prone skin using a nonaggressive treatment of a pH balanced, non-drying peel, an essential oil pulverization as a skin softening preparation for extraction, ozone and phytotherapy healing massage, and a specialized personalized mask.
- *Alpha Vital* – 50 minute treatment using organic AHA/BHA's from fruit, revitalizing dull and tired skin to reveal a softer, brighter, and more youthful complexion using warm

aromatherapy compresses, soothing essential oil pulverization, rapid fruit acid exfoliation, in addition to a relaxing massage and fresh fruit -based mask.

- *Optimizer* – 75 minute signature treatment; this “firming star” therapy encompasses the face, neck, décolleté, eye, and lip area, and is customized to each guest’s skin sensitivity using botanical steam compresses, active brushing, hydro-peel, essential oil stimulations, micro-peel exfoliation, tonifying massage, and firming eye, lip, face, and neck masks.
