For Immediate Release

Grand Cayman, Cayman Islands, August 1, 2007 – Grand Cayman has been attracting scuba dive enthusiasts for years and is known as a hot spot for seeing tropical fish and sea animals. But did you know that The Reef Resort also happens to have snorkeling sites that are just as exhilarating? The Reef Resort also happens to have a white, sandy, 1,600-square-foot beach perfect for snorkeling, not to mention its secluded East End location known around the world as an undisturbed marine wonderland. Snorkelers will relish in the wide variety of undersea delights as they swim beside untouched reefs teeming with tropical fish. Be prepared to swim with Parrotfish, Angelfish, Trumpetfish, Sea Cucumber, and Sea Fans in the crystal-clear blue waters with zero water currents. That’s why The Reef Resort is offering a five-night *Reef Snorkel Adventure* package built for two, which provides daily breakfast, snorkel gear, a special trip to the nationally renowned Stingray City and a beachfront suite in a deluxe studio with an in-room Jacuzzi and a patio/balcony, priced at U.S. \$1,300 per couple (also includes breakfast gratuity and room taxes). The package is valid through December 20, 2007, excluding the Thanksgiving holiday season. Visit online for reservations and additional details, [www.thereef.com](http://www.thereef.com).
